علم - حرية - تنمية

Presentation of the faculty:

The Faculty of Political Sciences which is one of the only two Algerian specialised faculties in this field is really important according to its role in giving high standard education to its students in order to make them aware of the characteristics and the challenges facing the world and preparing them to become the future elites through different careers including local administration, world affairs, journalism and government institutions .it founded by the executing decree n° 402 of 28 November 2011, which promulgates the creation of University of Constantine 03 with its six faculties and Institute

Organisational and Pedagogical structure

Scientific Activities

We organise many scientific activities as seminars, studies days and conferences that give the opportunity to teachers, researchers and doctorate be langin to our faculty and a bread to study and discus issues related to national and international political sphers.

Career opportunity:

We offer a multi-disciplinary formation that gives many opportunities to our students to integrate different sectors so they can be.

- Administrators in different Algerian administrations.
- Teachers
- Employees in different public and private sectors.
- High responsible in security sector.
- Journalist
- Diplomats.
- Researchers in different think tanks ... etc.
